Yatta lang

Dynamic Functional language for GraalVM

GraalVM

- Dynamic, strong typing
- Built-in immutable data structures
- Advanced pattern matching
- ML-like minimalistic syntax
- Native runtime-level asynchronous nonblocking IO
- Easy runtime-level concurrency

```
findOnline phrase = let
  google = Http\post "google.com" phrase
  bing   = Http\post "bing.com" phrase
in
  google ++ bing
```
